

NOTICE TO RESIDENTS

On August 4th of 2022 the US Environmental Protection Agency issued revisions to the Lead and Copper Rule of the Safe Drinking Water Act. Among other changes, the new rule requires all Community Water Systems to prepare and maintain an inventory of all service line materials by October 16th of 2024. The Town of Edwards will be reviewing historical records of water services, as well as plans and specifications, conducting basement surveys of existing water service materials, checking materials at curb box locations, and potentially performing limited excavations to confirm piping materials throughout the Water District.

As part of this effort, we are asking residents to confirm the water piping materials in their basements if they are able. Information on how to confirm the type of piping material in your household plumbing is described below in the Identification Procedure.

We are asking residents to fill out the form below and return it to the Town Offices with the following options.

- 1. **Mail to 161 Main St, PO Box 24, Edwards NY 13635;**
- 2. **Email to ktremper@danc.org; or**
- 3. **Drop off to the Town offices during business hour.**

M-T-Th 8:30AM - 1:00PM, Friday 8:30AM – 12:00PM.

A photograph of the piping where it enters the building MUST be included with the information on the type of piping material. If unable to provide a photograph a site visit may be required. Please return this information at your earliest convenience, but no later than May 1, 2024.

For those residents who cannot complete this information, we may conduct surveys on your behalf this summer. We ask any residents who cannot confirm the type of piping material to provide contact information and preferred day of the week and time of day for Town Staff to conduct the surveys. If there are any questions or concerns regarding any of this information, please contact the Town office at 315-562-2010.

Town Supervisor and Town Board

Plumbing Inventory Information: Include a picture of the piping.

Name: _____

Address: _____
